

DINERWARE®

Tablet and Mobile

Dinerware and the HP Elite Pad come together for a complete tablet-based restaurant POS. Reap the benefits of mobility without the monthly cost of other tablet-based POS systems.

With a fully-integrated MSR, docking station, and the ability to unclip the tablet for table service, your business is mobile-ready.

Get Started Today!

Flexibility: Go Mobile or Stay Stationary.

The best of both worlds. Go mobile by taking the HP Elite Pad from the docking station for tableside orders, or choose to stay behind the bar and open tabs like normal. The HP Elite Pad follows you.

Freedom. Lower Costs and More Choices.

Dinerware saves you significant ongoing costs over other tablet POS providers. With a one-time investment, Dinerware's proven solution supports thousands of transactions. Plus, you have the freedom to choose your merchant processor, your gift card provider, your loyalty solution, and more!

Reliability. Proven Technology Platform.

As a Windows and SQL-based application, Dinerware gives you the reliability and longevity that a mission-critical environment, like your business, requires. Stop relying on the uncertainty of your internet provider to run your business.

Best of all, you're getting Dinerware — the preferred POS software of the hospitality industry!
